

## An unforgettable adventure for four young people from Pincourt

Press Release | October 29, 2024

For immediate release

Last Tuesday, October 22nd, nearly 170 young people, had the incredible opportunity to embark on a magical 24-hour trip to Walt Disney World in Florida, thanks to the [Montréal Dreams Take Flight Fondation](#) and the support of Air Canada.

This year, the experience held a special significance for the Town of Pincourt, **as four young residents were nominated** by the town to live this enchanting adventure, thanks to references provided by the territory's three elementary schools and the local food bank. This unique collaboration with our municipal partners aimed to offer a memorable day filled with emotions and discoveries.

Every detail was thoughtfully planned to create unforgettable memories: an early morning departure under an honorary water arch from the airport firefighters, a full day enjoying Disney attractions, meals and snacks, a shopping allowance for the Disney stores, surprise gifts on the return flight, and a medal presented to each child by the captain. The trip ended with a warm and moving welcome from the families, eager to reunite with their young adventurers.

This dream became a reality thanks to the involvement of Mayor Claude Comeau and the members of Pincourt's municipal council, who supported this initiative with enthusiasm.

"Seeing these young people experience something so exceptional reminds us of the importance of supporting initiatives that benefit children. Through our collective efforts, we were able to give these kids a day they will never forget. We are extremely proud of this," stated Mr. Claude Comeau, Mayor of Pincourt.

The Town of Pincourt Employees' Community Support Fund also contributed to the cause by financially supporting the annual golf tournament organized by *Les Amis de la Fondation Voyages de Rêve-Montréal*. This support, combined with the Town's logistical assistance, greatly boosted the fundraising efforts essential to the project's success.

Mr. Simon Grenier, project manager at the Town of Pincourt's general management, dedicatedly coordinated every step of this adventure, from the nomination process to accompanying the participants. His commitment allowed the young people to experience this trip under the best possible conditions.
